

2021 District Parental Engagement

Due to Covid 19 restrictions visitors/parents are not being allowed to enter schools. K-12 faculty and staff are communicating with parents/families through e mail, remind, and phone calls. All parents/families are encouraged to contact their child's teachers with any questions or concerns.

Parents/families of students in grades 5-12 can check their child's grades through the HAC program. All links are found on the district website to make access easy for parents/families.

Pre-K - 4 will be sending home Math/Literacy Night packets in November. The packets will contain activities that can be done at home and a new book for each student.

The District will make changes to our Parental Engagement activities as guidelines are changed for Covid 19.
